EVERYDAY BEAUTY

It is a big happiness to watch how our children grow up, to follow their successes and failures, that make them learn things. There is a huge satisfaction that we had an influence on creating a separate being that grows, develops its own character and potential and wants to share it with others.

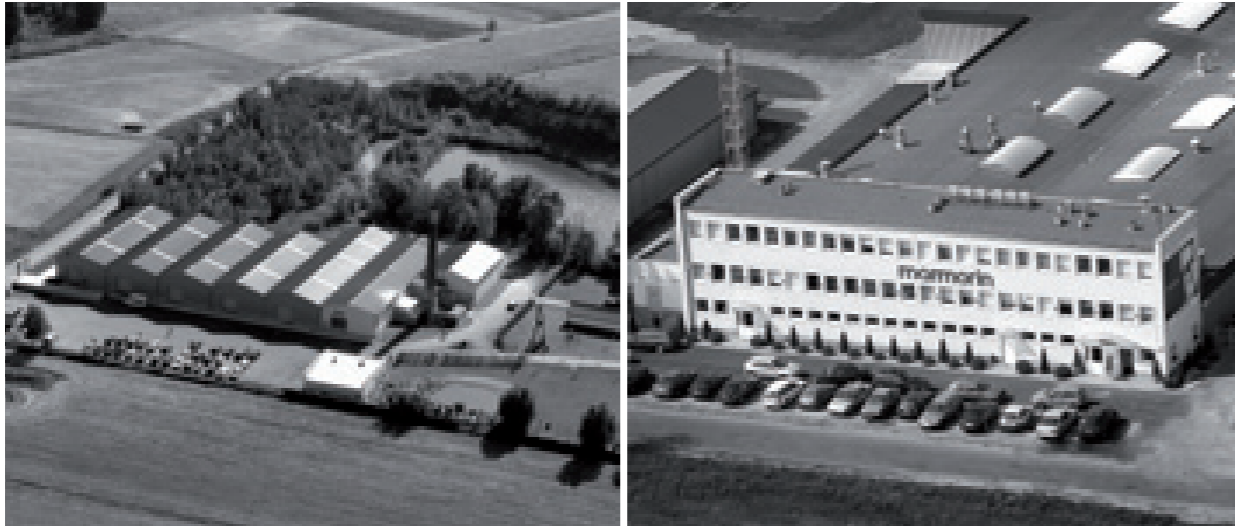

Marmorin has grown up, gained stable position and found its own way. We open a new period, looking for new challenges being aware of our responsibility. The objects we produce have to meet a variety of human needs, bring satisfaction and pleasure of usage. With humble respect to knowledge, we do our jobs diligently and accurately, we are not afraid of ambitious goals and our aspirations resembling dreams.

With every our product we prove that everyday life can be marked with beauty.

Attention! The colours may vary slightly from the actual colours.

Index system explained on page 61.

OUR ROOTS

Starkowo

Wschowa

1985 based on dreams and designing passion Marmorin was born. The successful start with production of the counters made of artificial marble caused our ambitions to rise. The production of wash basins was soon followed by sinks and shower tubs. Marmorin products became high quality products and enjoyed popularity mainly in the Western Europe. In the 80s and 90s almost entire production was sold to western markets.

From the very beginning it was the design that counted – the marriage of art and functionality. The necessity of constant technical innovations was obvious for us. Therefore we introduced the solid surface – material used for production of wash basins and shower tubs, highly valued thank to its unique features. That was enough to convince even the most requiring clients and resulted in the first serious successes

A medal awarded to us during the Budma fair trade opened new markets and brought a wave of orders.

To meet the demand, Marmorin extended and set up a spacious production facility in Wschowa. The next step was implementation of systems for quality control systems and environment management. Our products were gaining next awards and clients' trust.
And this is an obligation.

... AND WHERE ARE WE HEADING

Our mission and goals were constituted:

recognising clients' needs and giving them what they desire,

creating beautiful and solid objects, that can be used for many years many times a day and they will neither displease nor disappoint,

active participation in creating world design trends and implementation of innovative technologies,

high class design, responding to wide variety of human needs.

We lay out this way and we follow it with consequence.

SAFE AND QUIET ASYLUM?
OASIS OF RELAX
AND SENSUOUS EXPERIENCE?

OR MAYBE AN INSPIRING,
PLACE WHERE THE BEST IDEAS COME FROM?

YOU CAN DECIDE,
WHAT IS BATHROOM FOR YOU...

OPEN MINDS
AND ADVANCED TECHNOLOGY

marmorin
DESIGNSTUDIO

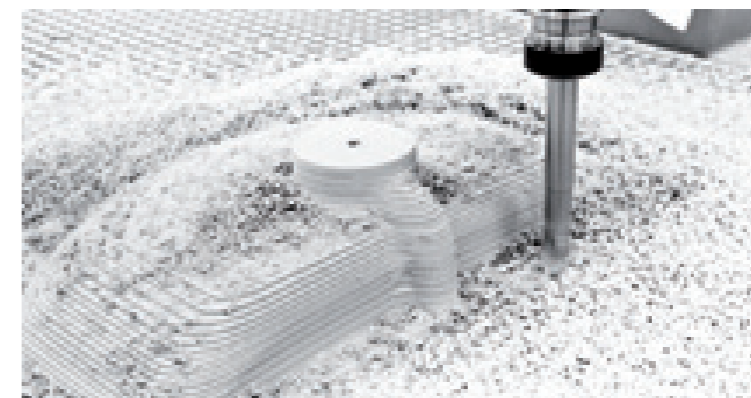

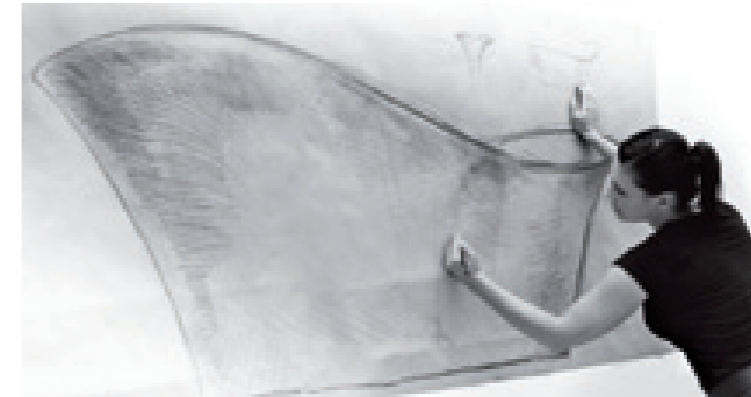

MEET US

Marmorin Design Studio is based first of all on people. It is nothing unusual, but unusual are the people themselves – professionals in a number of branches: designers, graphic designers, model builder, lab specialists, all focused on the same goal – supplying you with product that should entirely satisfy your needs. Good team, strong with its long experience, but still maintaining its fresh look at things and interest in the environment.

From the beginning Marmorin was the place where good models counted. The process of searching for them and converting into a beautiful, functional and long lasting products required that we had to give the designing process certain frame, create procedures and management standards. This way our design studio was born as a guarantee of safe and successful way from an idea to ready product.

WAY FROM AN IDEA TO READY PRODUCT

WE HAVE OUR OWN DESIGNERS FULL OF IDEAS,
 BUT WE STILL KEEP OUR EYES OPEN FOR NEW TALENTED PEOPLE.
 THE TEAM OF WELL-KNOWN DESIGNERS
 WORKING FOR US IS CONSTANTLY GROWING.

PIOTR WEŁNIAK

graduated from the Faculty of Interior and Industrial Design as well as from the Faculty of Sculpture at the University of Arts in Poznan. Designer, interior designer. Develops furniture, interiors, spatial forms and architecture.

MARCIN JĘDRZAK

graduated from the Faculty of Industrial Design at the University of Arts in Poznan. Designer, interior designer, since 1999 has been leading own studio „Jędrzak Design”.

MICHAŁ KORSUN

graduated from the Faculty of Industrial Design at the University of Arts in Warsaw. Industrial designer, poster developer, illustrator.

ANITA CHUDECKA

graduated from the Faculty of Architecture and City Planning at the Poznan University of Technology. In her daily works she deals with designing public and private buildings and is a passionate interior and furniture designer.

MARCIN KONICKI

graduated from the Faculty of Architecture and Design of the University of Arts in Poznan, with award for design. Since 2006 designing, producing graphics and interior design.

MONIKA BŁASZKOWSKA

graduate of the Faculty of Architecture and City Planning at the University of Technology in Gdansk, deals with interior and industrial design. Her portfolio includes numerous realisations of commercial interiors.

MONIKA ELIKOWSKA-OPALA I WOJCIECH OPALA

both graduated from the Faculty of Architecture and Design at the University of Arts in Poznan. Since 2010 owners of MOWOstudio, designing products, furniture and dealing with interior design.

FINISHING STANDRD DEFINES THE CHARACTER OF PRODUCT

QUALITY GUARANTEED

The production volume of Marmorin is increasing year by year. An important part of it is exported. Clients from all over the world appreciate the rich and state-of-art design, quality and big usage comfort.

Not to mention the resistance of products as a result of advanced manufacturing technology and usage of new generation materials.

Quality monitoring belongs to own certified laboratory of the company. Modern equipment and know-how of high class specialists allow to conduct all the necessary research procedures required in the implementation and production process.

GELCOAT® MATERIAL
GELCOAT® MAT MATERIAL
SOLID® MATERIAL
New DUROCOAT® MATERIAL

The constant striving for perfection resulted in development of four exceptional materials. Each of them satisfies different project needs and is destined for different solutions. They have however a few things in common: perfect quality, prestigious look and great comfort of usage.

GELCOAT® MATERIAL
GELCOAT® MAT MATERIAL

Our washbasins, shower basins and bathtubs are all manufactured with the use of a novel material. This material is an amalgam of a finely ground dolomite stone and a synthetic resin. We were among one of the first manufacturers in Poland to create our own **GELCOAT® MATERIAL** characterized with truly unique technological features. This material was created on the basis of a selected range of dolomite fractions and refining compounds.

 Heat shock-resistant	 Fully deaerated	 Shock-resistant	 Ultra hygienic	 Warm feel surface
 Perfect smoothness	 Easy cleansing	 Recoverable	 Wide color palette	 UV-resistant
 Stain-resistant	 Available for custom-trimming	 Scratch-resistant	 5 years warranty	

SOLID® MATERIAL

This material is a uniform mass combining resins and aluminum oxide. One important extra feature of this material is that it is non-flammable. The **SOLID® MATERIAL** products have gained a high esteem both in Europe and the USA. Thanks to its unique properties, the **SOLID® MATERIAL** is also widely used in public utility buildings and similar facilities.

 Non-flammable	 Fully deaerated	 Shock-resistant	 Ultra hygienic	 Perfect smoothness
 Easy cleansing	 Recoverable	 Wide color palette	 Warm feel surface	 UV-resistant
 Stain-resistant	 Available for custom-trimming	 Scratch-resistant	 5 years warranty	

New DUROCOAT® MATERIAL

The **DUROCOAT® MATERIAL** is thus far Marmorin's greatest achievement in material production. This material embodies only the best features, so vastly respected by our customers. It can be easily shaped, it has a soft feel, it gives in to the architect's imagination. It allows to combine a range of products that are available in a wide palette of colors and are suitable for custom-trimming as well. Marmorin's **DUROCOAT® MATERIAL** is the next step in the continuous search for perfection. Novel possibilities in creating beautiful, custom-designed products with increased durability

35% 35 per cent more durability	 Shock-resistant	 Ultra hygienic	 Easy cleansing	 Perfect smoothness
 UV-resistant	 Heat shock-resistant	 Fully deaerated	 Warm feel surface	 Wide color palette
 Scratch-resistant	 Available for custom-trimming	 Stain-resistant	 Recoverable	 12 years warranty
