Home Water Filters - Countertop

Magnesium Mineralizer Jug Filter

Transform your tap water into mineralized drinking water.

Removes limescale & chlorine.
Adds magnesium for taste & vitality.
Fits into your fridge door.
Cartridge Capacity: 120L or 1 month.

BWT Aqualizer Replacement Cartridges Magnesium, Zinc, Silicate & Alkalised Cartridges remove limescale, chlorine & sediment.

1. Magnesium for taste & health
2. Zinc for immunity
3. Silicate for healthy skin, hair, and nails

Portable Countertop Filter Chlora+ Compact, economical & easily installed.

High capacity 9000L.
Bacteriostatic KDF 85 filtration media &
Chloramine removal Capacity: 9000L or 12
months.

High Flow Countertop Filter Chlora+ High Capacity 3.8L/min 27,750L.

Bacteriostatic KDF 85 filtration media.
Capacity: 27,750L or 36 months.

Deluxe Countertop Purifier Chlora+

**Improves the taste, colour & odour of tap water,
removes chlorine, sediment & other harmful
contaminants.**

H2O|BWT's proprietary GAC/KDF85 filtration media.
Easy to install - requires no plumber. Capacity:
14,250L or 24 months. Fits most standard faucets.

AQA BOB Countertop

**Improves the taste, colour & odour of tap
water, removes chlorine, sediment & other
harmful contaminants.**

Includes Ecosoft 10" carbon block (CTO)
Plug and play, easy installation, and filter
change.

Home Water Filters - Countertop

Stefani Gravity Water Filter

Available in 4 & 6 Litre options

Environmentally friendly, provides pure, fresh drinking water from any water source.

- Simple. Economical. Stylish!
- Easy to use.
- Perfect for pensioners, single users, or applications where power and/or plumbed-in water is not available.

Home Water Filters - Undercounter

2 Stage Water Filter - Complete Set

Affordable, effective filter. Improves taste, odour & colour. Easy cartridge swap. Removes chlorine & other contaminants.

Prevents scale build up in your kettle & appliances. 1 litre of clean water per minute.

3 Stage Water Filter - Complete Set

Purifies & softens water. Improves taste, colour & odour. Easy cartridge swap.

Removes chlorine & other harmful contaminants. Prevents scale in your kettle & appliances. 1 litre of clean filtered water per minute. Easy connection in 15 min.

RV-US4 Sediment Filter & Faucet

Chlora+ high-capacity, high flow technology, bacteriostatic purification. 45,000/36 months - 7.6l/min. Includes separate faucet for purified water. Supplied in kit form - includes all fittings required for installation.

UF Filter Membrane advanced ultrafiltration technology

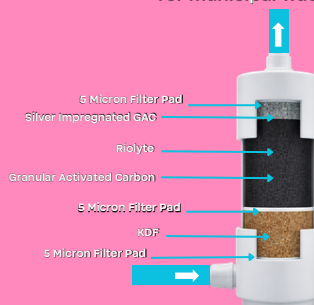

12 months removes 99.99% of bacteria, viruses, pathogens and particles. perfect for undercounter use or as an add-on for other filtration systems

US4-S High Flow Undercounter Water Filter Chlora +

- Chlora+ high-capacity, high flow technology, bacteriostatic water purification.
- 90,000 L/36 months - 7.6 L/min
- Includes separate faucet for purified water.
- Supplied in kit form - includes all fittings required for installation

H2O International's proprietary technology for municipal water.

Home Water Filters - Undercounter

Woda & AQA Drink Magnesium Filters

Boosts magnesium & reduces limescale, improving taste & aroma of tea & coffee.
Reduces limescale in kettles & appliances.
Patented ion-exchange technology adds magnesium.

**SAFE,
DELICIOUS, AND
MINERALISED
WATER
STRAIGHT FROM
YOUR TAP!**

AQA Drink Care & Protect for Hard Water

All-in-one 5-stage purification & mineralisation for your drinking water
Removes sediments, microplastics, chlorine & limescale. Ultra-filtration removes 99.9% of bacteria, viruses & cysts.
Adds magnesium for taste and health.
suitable for hard water < 90ppm.
Softens water.

AQA Drink Care for Soft Water

All-in-one 5-stage purification & mineralisation for your drinking water
Removes sediments, microplastics, chlorine & limescale.
Ultra-filtration removes 99.9% of bacteria, viruses & cysts.
Adds magnesium for taste & health.
suitable for soft water > 90ppm.

BWT Filterhead Technology

Fast & simple cartridge replacement. No technician required. Non-return valve reduces spilling when changing cartridge

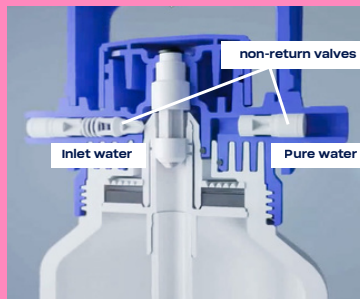

- Automatic Aqua-stop
- 2 x non-return valves (inlet & outlet)

- Automatic Aqua-stop
- 2 x non-return valves (inlet & outlet)
- For Magnesium cartridges

Reverse Osmosis - Undercounter

ecosoft

5 Stage RO System with or without Pump

Removes 99.8% of impurities, incl. chlorine, fluoride & bacteria.

5 stages of water purification. 8L of drinking water per hour. With pump for low-pressure water systems. Easy installation. Remineralizes your drinking water.

ecosoft

Standard RO Filter Replacement Set

Double sediment filtration.

Fits RO systems from other manufacturers
Stg. 1. Removes sediments <5 µm.
Stg. 2. GAC filter removes chlorine, heavy metals & natural organic matter.
Stg. 3. Removes sediments & other insoluble compounds < 1 µm.

ecosoft

Advanced RO Filter Replacement Set

Sediment filtration for high chlorine water.

Final water polish.
Stg. 1. Removes sediments < 5 µm.
Stg. 2. GAC filter removes chlorine, metals & organic matter.
Stg. 3. Carbon block removes chlorine & other insoluble components < 1 µm.

ecosoft

EcoSoft Cross Solo RO Reduces up to 99% of contaminants

The integrated 500GPD RO membrane and carbon filtration effectively purify water by removing 99% of impurities, including viruses, bacteria and reduces PFAS, while enhancing taste and odor with coconut-based carbon.

ecosoft

P'ure Balance RO System with pump

Removes 99.8% of contaminants. Remineralizes your drinking water.

Aqua Green technology is economical & eco-friendly. Designed for low pressure water systems. Easy to install & maintain.

ecosoft

Pure Balance 6 Stage RO Filter Magnesium minerals makes water fresh & tasty.

Industry leading membrane technology. High stabilised salt rejection - 96%. High capacity. Easy to install & maintain.

ecosoft

Ecosoft Filter Replacement Set - P'ure Balance

The Replacement set of filters for use with the Ecosoft P'URE BALANCE reverse osmosis system.

1. Meltblown Sediment Filter
2. GAC Filter
3. AquaGreen Filter
4. AquaSpring Filter
5. Carbon Post Filter

ecosoft

BWT Pure Balance Set of Replacement Filters

The Replacement set of filters for use with the Ecosoft P'URE BALANCE reverse osmosis system.

1. sediment replacement filter
2. Granular activated carbon (GAC)
3. AquaGreen technology
4. Balance filter
5. Coconut shell carbon post-filter

ecosoft

RO Mineralizers & Membranes Replacement membranes & filters

1. Mineralizer.
2. 75 GPD (Gallons Per Day) RO membrane.
3. 100 GPD RO membrane.

Whole House - POE (Point of Entry)

ecosoft

Sediment Filter Housing 3/4"
Filter Housing made from European food-grade plastic.

Max operating pressure: 8bar
Transparency allows for visual determination for a filter change.

ecosoft

Double & Triple Big Blue 20"
Plug & Play!

Suits municipal, borehole & rainwater applications. All you need to do is purchase your 20" cartridges & you are ready to go.

Protector & Backwash Filter

Protects your geysers, domestic & industrial appliances & ensures high-quality water.

- Flow rate: 3000 - 3,500L/h.
- Sediment filter removal.
- Manual backwash - rotating wiper backwash technology.
- Fitting sizes: 3/4".

E1 Sediment Filter

A masterpiece of precision & fully compliant with all standards for hygienic & safe drinking water.

- Micron sizes: choice of 90qm & 30qm.
- Flow rate 2,300 - 3,630L/h.
- HWS: includes a pressure reducer module.

AquaStar UV

Easy Plug-&-Play installation.
Suitable for municipal, borehole and rainwater purification.

- Removes unwanted contaminants & kills harmful bacteria.
- Flow rate: Up to 1000L/hour.
- Operating pressure: 400kPa (max).

- Frame available in Stainless Steel

P'ure Water Softener 25L

Ecsoft P'URE Water Softeners are designed to reduce the hardness of household water.

- Suitable even for the smallest apartment.
- 1 Filter removes 5 impurities.
- Eliminates streaks & stains on dishes & softens laundry.

BWT Softener Sanitabs 8kg

Cleans & disinfects the ion exchanger & kills any bacteria & other germ cells, as well as removes biofilm from the ion exchanger in the softener.

Whole House - Water Treatment Systems

FRP - Activated Filtration Media

Removes sediments <5µm.

Lasts for 10 years when correctly backwashed.

Double the performance of sand filters. Resists bio-fouling, bio-coagulation & channeling.

FRP - Calcite

Raises pH of water to a non-corrosive equilibrium.

Naturally occurring, inexpensive material. Low uniformity coefficient for maximum contact. Slower reacting for controlled pH correction.

FRP - Granular Activated Carbon

Removes contaminants & improves colour, taste and odour.

High density, large micropore carbon column & high surface area. Removes chlorine, chloramines, lead, TCE, PCE, THM, phenols, pesticides, detergents.

ecosoft

Ecomix Type C Media

Soft Water throughout your house.

Removes sediment, iron & manganese.

Reduces hardness & organic matter including tannins. For treatment of borehole & chlorinated municipal water.

ecosoft

Water Softener Tablets

99.9% pure salt.

No contaminants.

Prevents formation of insoluble deposits in softeners.

ecosoft

Ecolite Water Softening Resin

Excellent kinetics & good physical, chemical, & thermo-stability.

Cation styrene-DVB gel resin delivered in Na⁺ form. High capacity resin. Suits residential, commercial & industrial applications.

Scala 1 Pump

Maintains constant water pressure for various domestic applications.

Integrated, quiet, self-priming water pressure pump.

Rated flow: 3.59m³/h.

Scala 2 Pump

Variable speed drive. Maintains water pressure for various domestic applications.

Integrated, quiet, self-priming water pressure pump.

Rated flow: 3m³/h.

Faucets

3 Way Mixer - Brushed Steel
Contemporary brushed stainless steel. For regular hot, cold & purified water. Separate levers for regular tap water & purified water in one mixer. Separate inlets & internal pipes. High spout for easy filling of bottles & pots.

Standard T-Style Faucet
Simple, stylish tap for use with undercounter water purifiers & ROs. Single lever water purifier faucet. Brass body with polished chrome finish

Black | Premium Food-grade 304 Stainless Steel, Lead-free,
Anti-rust & Anti-corrosion. Suitable or use with all models of under-counter water purifiers which utilize either 1/4" or 3/8" pipe

Reverse Osmosis

ecosoft

Robust 1500 RO Filter High-flow
Pure water for beverage, food & drink preparation. 60L/hr pure water for hotels, restaurants & cafes. Protects appliances & equipment. Produces sparkling dishes & transparent ice. Improves taste of drinks and beverages. Operates without pressure tank.

ecosoft

Robust 3000 RO Filter
High-flow pure water for beverage, food & drink preparation. 145L/hr water for HoReCa. High-pressure pump. Built-in pressure gauges indicating pre-filter & membrane condition. Standard membranes & replacement filters. Operates without pressure tank.

ecosoft

Ecosoft RO Membrane
Membrane replacement for the Robust 1000 RO. 100 GPD (Gallons Per Day). Full 15L pressure tank in 60 minutes. Full capacity even in 15°C water

SEDIMENT GAC CARBON BLOCK ROBUst FILTER

ecosoft

Ecosoft Filter Replacement Set
Filter cartridge replacement for the Robust PRO RO. Sediment filter removes sand, silt & rust. GAC filter removes chlorine & organic matter. Carbon-block improves smell & taste of water. ROBUst PRO filter adds magnesium & calcium, enhancing taste of tea & coffee.

ecosoft

Ecosoft RO Membrane
Membrane replacement for the Robust 3000 RO. 500 GPD (Gallons Per Day).

Replacement Cartridges & Packs

GAC/KDF

Ideal for purification of municipal water.

5,000L or 12months, 10" cartridge. Improves tastes, colour & odour. Removes chlorine, natural & synthetic organic matter & volatile organic compounds (VOCs). Contains H2O's proprietary KDF technology.

GAC/KDF CL+

Ideal for purification of municipal water treated with chloramines.

10"cartridges. Improves tastes, colour & odour. Removes chlorine, natural & synthetic organic matter & volatile organic compounds (VOCs) Contains H2O's proprietary KDF technology.

GAC/KDF CL+ for Delux Filter

Ideal for purification of municipal water treated with chloramines.

14,250L or 24 months, 9.5/10" cartridge. Improves tastes, colour & odour. Removes chlorine, natural & synthetic organic matter & volatile organic compounds (VOCs) Contains H2O's proprietary KDF technology.

ecosoft

Standard 3-stage Replacement Set

Fits standard 10 inch housings.

- Stg. 1: Sediment filtration <5µm.
- Stg. 2: Softens water & removes chlorine & heavy metals.
- Stg. 3: Improves colour, taste & odour of water.

ecosoft

Absolute 3-stage Replacement Set

Fits standard 10 inch housings.

- Stg. 1: Softens water & removes chlorine & heavy metals.
- Stg. 2: Removes chlorine, organics & toxic heavy metals.
- Stg. 3: Improves colour, taste & odour of water.

ecosoft

Cross Solo Replacement Cartridge

Fits standard 10 inch housings.

- 1.3 litres per minute.
- 2-in-1 Replacement filter :
- 30% carbon filter & 70% membrane
- Reverse Osmosis membrane capacity of 500GPD

Refridgerator & Appliance in-line Water Filters

Seamless Convenience through Direct Connection

- Improves taste, colour & odour,
- Removes chlorine, chloramines, natural & synthetic organics & volatile organic compounds
- Easy to install
- DIY application

Add a PRV for added protection

SEDIMENT FILTERS

String Wound Filter

KEY FEATURES: Depth Filter. Larger sediment holding capacity For larger quantity sediment removal.

Melt Blown Sediment Filter

KEY FEATURES: Surface Filter. For standard municipal sediment removal.

Dual Gradient Sediment Filter

KEY FEATURES: Depth Filter. 3 times higher capacity compared to standard PP replacement filters. Minimal pressure loss.

Bacteriostatic Sediment Filter

KEY FEATURES: Reduces the growth of slime & bacteria on the cartridge.

CHLORINE FILTERS

Granular Activated Carbon Filter

KEY FEATURES: Iodine No. +900mg/g, coconut shell carbon - improves colour, taste & odour. Food-grade plastic, made in the EU. Higher flow rate.

Carbon Block Filter

KEY FEATURES: Iodine No. +1000mg/g, coconut shell carbon for best absorption & better taste. Powder Activated Carbon (PAC) for better absorption.

Iron Reduction Filter

KEY FEATURES: Reduction of iron up to 80%. Filter casing made of food-grade plastic, manufactured in the EU.

Ecomix® Media Filter

KEY FEATURES: 5 in 1 Filter. Filter casing made of food-grade plastic, manufactured in the EU.

SPECIALISED FILTERS

Hardness Reduction

KEY FEATURES: Prolongs life of appliances. Filter casing made of food-grade plastic, manufactured in the EU.

DESCRIPTION	AVAILABLE SIZES
String wound sediment filter	10" & BB20
Meltblown sediment filter	10" & BB10, 20" Slimline & BB20
Dual gradient sediment filter	10" & BB20
Bacteriostatic sediment filter	10" & BB20
Granular activated carbon filter	10", BB10 & BB20
Carbon block filter	10", BB10 & BB20
Hardness reduction filter	10"
Iron reduction filter	BB20
Ecomix media filter	10"

BWT Event Cap

The BWT Event Cap is more than just an accessory – it's a bold statement for change.

This stylish snapback in vibrant pink with navy accents features a high-quality front panel print of "BWT – Best Water Technology" and the side slogan "Change the World." Perfect for those who want to stand up for something – and look good doing it

Climate Bottle Edition

Purified water on the go. No single-use plastic bottles with our stylish refillable bottles!

500ml stainless steel bottle. Double-walled body
. Leak-proof stainless steel screw cap.
Shatterproof & food-safe.

OUR SERVICES

Water Dispenser Sanitation

Sanitation involves the cleaning of the external parts of the dispenser, and the cleaning and disinfecting of all internal water contact surfaces, pipework and taps. The sanitation can take about 15 minutes. H2O|BWT can sanitise almost any type of dispenser. We recommend dispenser sanitising every 6 months.

Installation, Service & Repair

Our infield specialist team will ensure you get the best out of your product, whether it's installation of new products or servicing of the existing. We also offer a service of auditing your domestic water treatment plant and advise the best option for refurbishment.

Water Dispenser Rentals

We offer a wide range of products and services that bring you good quality drinking water for your home and office. Our rental solutions offer a wide range of water purification and filtration products. We offer competitive pricing, professional service and a dedicated after-sales service team.

Water Delivery Service

Purified water can be delivered to your doorstep for use in your home or for a bottle type dispenser. This convenient service ensures you have water on tap, whenever needed.

Get a Water Sample Analysis Done to Determine the Perfect Water Solution for You!

We're here to help!

You really shouldn't buy a water filter off-the-shelf. It is highly likely that it will be incorrect for your area's water conditions. Send us a water sample and we will advise which solution is best for you.

Visit our website for all the information you need on sending us a water sample. The result? 100% peace of mind that you bought the correct water filter for your needs.
